

12 Health Facilities

Health Center

The **Health Centre at Madha Engineering College** is a well-equipped medical facility dedicated to providing quality healthcare services to students in a safe, comfortable, and confidential environment. Designed to cater to both emergency and routine medical needs, the centre includes **separate inpatient wards for male and female students**, ensuring privacy and appropriate care.

The facility is staffed by a qualified **Medical Officer** and a **Healthcare Assistant** from the **Madha Medical College and Research Institute**, offering professional and compassionate care

to all students. In addition, the centre benefits from the expertise of a **Psychiatrist**, supporting students' mental and emotional well-being.

Key services offered include:

- Routine consultations and first aid
- Management of minor illnesses and injuries
- Mental health support and counseling
- **Annual health check-ups**
- **Vaccination drives**

The college is committed to continually enhancing the quality of medical services. **Future plans include upgrading the centre with advanced medical equipment** and expanding its capabilities to provide even more comprehensive healthcare support for students.

Madha Engineering College recognizes the vital role of health in academic success and strives to maintain a holistic approach to student welfare through this facility.
